I casually found this, which may
interest you. The tree to the ex-
treme right died last winter,
thus enabling us to shift the
drive so as to include the ground
on which it used to stand. No-
where were windows in gables just
about to be reopened. No one
bottoms just about naval rivalry.
We are no longer on your
side. Thanks for sympathy on the
Kings ill res. We hope for the best
G.I.

Miss Parlow.
